Experience

Xcitech Technologies, Remote — Software Engineer
SEP 2022 - Present

Worked as a MERN Stack Engineer, handling PHP (Laravel) with Vue or React for frontend development. Built RESTful APIs using Node.js and employed Nuxt.js for server-side rendering of Vue.js applications.

WebManufact, Bengaluru — Full Stack Developer
JAN 2022 - SEP 2022

Developed user-friendly frontend with Vue.js for complex warehouse management software. Led full-stack development, creating Rest APIs with Laravel and optimizing MySQL database for performance and reliability. Single-handedly responsible for designing the database architecture.

Convergent Infoware, Kolkata — Full Stack Developer
NOV 2020 - DEC 2021

Developed a robust doctor booking system similar to Practo and a dynamic theme customization feature like Udemy, using Laravel and jQuery for optimized functionalities. Played a pivotal role in designing and optimizing database structures, introducing new language features, and integrating secure payment gateways like Stripe and Instamojo within Laravel, enhancing app functionalities and user engagement.

Graphe - A Design Studio — Web Application Developer
NOV 2020 - DEC 2021

Developed ecommerce app with Laravel, MySQL backend, and jQuery/Bootstrap frontend; designed WordPress sites for wedding digital products.
